

What is Raz Kids?

This is an interactive reading programme that assists children in reading fluency and comprehension. This programme is easily accessible from any electronic device and will work as additional language reinforcement.

PARENT ACCESS

Giving Parents Access to Student Progress Has Never Been Easier!

From the Parent Portal, parents can see which books and activities their child has completed, monitor their progress, and send them messages.

TEACHERS CAN PROVIDE ACCESS

All you'll need is an email address to sign up parents from the [Roster page](#) in your Kids A-Z management hub.

PARENTS CAN REGISTER

Parents can request access to their child's information by simply logging in to Kids A-Z as their child and clicking the "Parents" link in the top right and following the instructions to provide an email address. You need to approve the email address before a parent can see their child's information.
